Super Sunny Times!

Hello family and friends,

June was an incredible month! We created superhero crafts, held a *SUPER*-themed event, practiced our life skills, spent time in the community, and more. Summer is especially fun because we have the opportunity to use Mission Road's pool. We like to splash and soak up the sun on Fridays because there's no better way to end the week. We also love summer because it means we can enjoy Inspiration Island (last picture on the right). We get to cool off, ride the boat and train, and have summertime fun!

Our new gym area has been getting a lot of use. As you can see in the second picture (left to right above) we have a group playing pickleball. We love that we can move the nets and adjust their height because it enables us to play volleyball and badminton too. It provides additional exciting ways of staying healthy and getting some movement throughout our days.

You may recall that last year we had the opportunity to visit Comic Con. Well, we had so much fun that we decided to bring Comic Con to Unicorn Center this year! We spent an entire week preparing and decorating for the event. Our staff members and individuals all dressed up in superhero costumes. We turned our conference room into a Comic Con fan's dream with real artwork and items that can be found at actual Comic Con events. A Spider-Man Dinosaur even helped give tours of all of the amazing items on display (pictured top left). The event also included music, dancing, a costume competition, and popcorn!

Make sure you are following us on Facebook for more surprises. In fact, we have an exciting announcement coming up that you do not want to miss!

Supported Employment Department

All About the ToyotAbility Program!

We have been super busy in our Supported Employment Program and are happy to announce our partnership with Toyota Texas' ToyotAbility Program! Currently, six of our individuals (pictured top right) have gained meaningful employment at Toyota since the program began this past spring. Members of the program assemble nine individual subcom parts that are taken to the manufacturing process for assembly. This is the first ToyotAbility production center in San Antonio.

Here's what our individuals are saying about the ToyotAbility Program!

"I like working for Toyota." - John A.

"Coming to work feels like family!" - Joshua P.

"Since working at Toyota, my days have been very active and have been very fulfilling." - Beaux P.

Fatima and Hector Solis are a married couple, and through sign language and Spanish, expressed that they are very happy for the opportunity to work and are so grateful that Toyota has entrusted them with their jobs.

Splashing Fun Times!

Hello family and friends,

Summer is officially here and we are ready for it! June marks the opening of our swimming pool and the splash pad. We love going swimming every Friday with our staff members and lifeguards. We take beach balls and splash around the entire day. We absolutely love that the pool is covered because it allows us to swim for hours in the afternoon while beating the Texas sun and heat.

We also have the opportunity to enjoy Morgan's Inspiration Island during the summertime. The photo above (second from left to right) shows one of our groups ready to enjoy the cool water fun. Summer also means it's time for our free summer movies series. This is another one of our favorite ways to beat the heat! We get to enjoy spending time indoors in the cool AC with drinks and popcorn.

One of our most treasured activities is going to the Ministry Center to participate in bible and song activities. Above, in the third picture from the right, you'll see some of our individuals having fun participating. We are ever so thankful for the ladies who volunteer to play the guitar, sing, and dance with us! It is a truly special outing that we love. As summer continues, all of our classes will have the chance to go out for more community activities.

See you soon!
